

## **Pretty little MRKOPALJ**

*Better than New York  
Better than Paris  
Better than Honolulu  
Better than Maldives*

We welcome you, dear visitors  
with open arms  
we will show you proudly  
our pretty little Mrkopalj

This place is known for stillness  
but quiet, it will never be  
'cause during long dark nights  
wood sounds from our factory

Bridge:  
you can ski from our slope in winter  
but less snow and snow will fall  
climate change is everywhere  
even here in (our) pretty little Mrkopalj

please stay  
please stay please stay

With our great forest and big mountains  
And people in wilderness finding their way  
We would like to be warm and welcome  
a shelter, a place to stay

nobody here thinks the same  
At church, in pubs or at home  
All has to come together here  
To sing side by side this poem

*Better than New York  
Better than Paris  
Better than Honolulu  
Better than Maldives  
Please stay*

*Better than New York  
Better than Paris  
Better than Honolulu  
Better than Maldives  
Please stay*

In our best place Ever!
